

# SOUND PLOT FOR THE DOWNTOWN MOUNTAIN BOYS

Contact: Don Share, donshare@gmail.com

## AUDIENCE

### Our sound requirements:

- Three condenser instrument microphones for guitar and fiddle and mandolin (or dynamic microphones when appropriate). We can provide 2 Røde NT5 microphones for the fiddle and mandolin and one AKG C-451-E condenser for the guitar, or 3 beta 57As. All the condensers require phantom power.
- Three Vocal Microphones. We can provide 3 Sure Beta 58s
- Two vocal microphones that allow the fiddle and mandolin players to talk.

### Our sound preferences:

- We like to arrange the band in a semi-circle so as to facilitate visual contact among members.
- Please keep bass out of the monitors and take a 1/4" feed for the mains from the bass amp (provided by our bass player)
